The debaters though inexperienced both handle the subject with an eloquence which was admired by all. The judges rendered a decision of two to one in favor of the affirmative.

### Paid Proportionate Share.

A poor fellow having with difficulty procured an audience of the Duke of Newcastle, told his grace he came to solicit him for something in the shape of a support, and as they were the same family, both being descended from Adam, hoped he should be refused. "Surely not," said the duke, "surely not—there is no such thing as a richer man than I am."

### Cannot Eliminate Love.

A periodical devoted to literature pleads for plays based on a situation other than love. The author in producing such plays is of the opinion that the play must have a hero, and a hero the playwright, as the audience, almost inevitably view expressed two thousand years ago by a scribe on the walls of Pompeii: "He who has not loved a woman is not a man."

Reasoning by Deduction.

A young English lady who was going out to New Zealand to get married went to a dressmaker for her trousseau. The dressmaker suggested a warm material. The young lady asked why, saying that the climate of New Zealand is a beautifully mild one. The dressmaker replied: "I assure you, madam, you are mistaken. For that is where the frostiest climate prevails."

#### BUCKEYE

Joe Oberstar spent Friday night at W. E. McComas.

Wm. Shrader is very low with pneumonia.

W. T. Townsend was in Highland county on business this week.

Letcher Herald was in Monterey this week visiting friends. He will soon leave for Greenbrier, where he will look out a location.

Mrs. Clara Gibson, who has been visiting friends and relatives here, returned to her home at Monterey, Friday.

Uncle Abraham Sharp is quite indisposed at this writing. Dr. Hite was called Sunday evening.

Mrs. Anna Curry is recuperating from a severe attack of diphtheria.

We understand that H. F. Arbogast and H. H. Grimes have sold their farms to Wm. Gafford and will vacate soon.

Rev. E. R. Crackett, evangelist, will begin a series of meetings at this place.

We note in the county court proceedings of last week that the bridge across Douthards creek was condemned and a temporary ford order opened. We take it that they will have this temporary ford until a republican court is elected which will build them a bridge. How about it folks on Douthards creek? The literal meaning of such action of the court is "Progress with Economy".

The little child of Mr. and Mrs. Ira Bussard, of New Hope, is very low with Pneumonia at this writing.

W. G. Hull, of Green Hill, Highland county, Va., has bought W. T. Townsend's farm. Mr. Townsend contemplates moving to Marlinton. There seems to be quite a bit doing in our section in the way of land sales, which seems to indicate a republican victory in November.

Miss Edna Arfington is visiting her mother, F. C. Arfington at Thornton.

Master Richard George was visiting his grandparents at Hotel Barbours last week.

Mrs. Anna Shuler is spending the week with Mrs. Clara Phillips at Bayou. Mrs. Phillips had the misfortune of breaking her hand very badly, but we are glad to hear that she is getting along nicely.

Gene Kivine still knows how to trade horses. He sold Dan Vandevender a fine saddle horse Saturday.

David Radley is the champion harness cutter for a team of twenty years ago.

There is quite a bit of sickness in our community.

Edgar Arbogast, little son of Ed Arbogast, has been quite sick but is now better.

Sylvanus Spangler was called to Pittsburg, Pa., to see his mother, who is seriously ill.

We are glad to see W. F. Wilfong able to be out again. Joe Baxrodie, of Hightown, Va., was visiting his parents at his place Saturday and Sunday.

Mrs. Wm. Vandevender was the guest of Mrs. F. W. Arbogast Sunday.

News is scarce this owing to such bad weather. With best wishes for the News we take our exit.

#### Airstrip Trolley Car.

It is quite a new idea to drive a suspended trolley car by means of a propeller like an airplane. The car, with which experiments are being made at Burden, Cal., runs on a short length of overhead track of about a quarter of a mile, and is driven by a twenty-six horsepower gas engine. The car is made of steel and aluminum, and is intended to have a light flexible covering, with celluloid windows. It is 30 feet long, and can carry 10 passengers. It has worked quite satisfactorily, though the track is too short to test its speed. The propeller has two blades, like huge fans, made of sheet metal or strips of steel tubing. Another propeller will be fixed in front, which will double the motive power and prevent stoppage in case a breakdown to the rear propeller.
